

The implementation of service user experience in Social Work education

Who we are

We all have experiences with ...

- Being users of mental health care (A)
- Prejudices and stigma of/in the community and ourselves (A)
- Process of recovery and finding new perspectives, meanings, purposes in life (B)
- Finding support and power to survive (B)
- Studying Social work (and other new roles) (C)
- Attempts to integrate the above A, B, C

Our research

Notre projet de recherches

- By having started research we wanted to contribute to the implementation process of experiential knowledge as part of a new curriculum.
- The results of the research: which conditions are needed?

The preconditions

Les conditions essentielles

- Safety - *La sécurité*
- Space - *Créer de l'espace*
- Stigma - *Le stigmat*
- Guest speakers - *Conférencier invité*
(/Conférencière invitée)
- Personal reflection - *Les réflexions*
personnelles
- Practice learning - *Apprendre dans la pratique*
